

# Visual Paradigm

## Academic Training Partner Program

Visual Paradigm partners with academic institutions around the globe to help develop the next generation of IT professionals. By giving students early exposure to software used by more than 320,000 IT practitioners from small businesses to Fortune 500 companies, they can graduate with the skills needed to be indispensable to their future employers.

Visual Paradigm Academic Training Partner Program was launched since 2003, with over 1,000 partners in the program and more joining every year.

### What are the Benefits

#### Department-wide Licensing

One annual fee covers your entire development courses offering in: Enterprise Architecture, Project Management, Business Analysis, Visual Modeling, Database, User Interface Design and etc...

#### Chosen by 1,000+ universities

More than 1,000 universities and over 320,000 IT practitioners use Visual Paradigm all over the globe. Excellent usability let teachers and students pick up visual modeling skills in no time.

#### Support various operating systems

Our products are able to run on Windows, OSX as well as Linux.

#### Bring the licenses home

As learning should also take place outside classroom, Visual Paradigm facilitates this by allowing your students to bring the license keys home.

#### No license server installation

No server administration is required. Auto activation process is managed centrally by Visual Paradigm over the cloud. Students can activate Visual Paradigm anytime & anywhere through internet.

#### Receive keys before payment

Software procurement can be a long process. Since we don't want to keep you waiting, you can get your license key to start using Visual Paradigm before the payment is settled.

The Academic Training Partner Program provide two kinds of partnership. Each partnership will include a department-wide software license based on the edition you have chosen. The table below consists of all the features offered under the two kinds of partnerships.

## Edition Table

|  | Gold<br>(VP Enterprise) | Silver<br>(VP Professional) |
|--|-------------------------|-----------------------------|
| Annual Partnership Fee                               | \$5,000                 | \$2,500                     |
| UML & SysML  | ✓                       | ✓                           |
| BPMN   | ✓                       | ✓                           |
| ERD & DFD  | ✓                       | ✓                           |
| Business Modeling                                    | ✓                       | ✓                           |
| Task Management                                      | ✓                       | ✓                           |
| User Story - 3C's & Scenario                         | ✓                       | ✓                           |
| User Story Mapping                                   | ✓                       | ✓                           |
| Affinity Estimation                                  | ✓                       | ✓                           |
| UX Design - Wireframe, Storyboard & UI Designer      | ✓                       | ✓                           |
| Strategic Analysis Diagrams (SWOT, PEST, etc)        | ✓                       | ✓                           |
| CX Design - Customer Journey Mapping                 | ✓                       | ✓                           |
| Code Generation & Reversal                           | ✓                       | ✓                           |
| Database Generation & Reversal                       | ✓                       | ✓                           |
| Document Generation                                  | ✓                       | ✓                           |
| Decision Table and Rules Management                  | ✓                       | ✓                           |
| CMMN   | ✓                       | ✓                           |
| SoaML  | ✓                       | ✓                           |
| ArchiMate® 3 (The Open Group ArchiMate® 3 Certified) | ✓                       |                             |
| TOGAF® ADM Guide-Through                             | ✓                       |                             |
| Project Management Lifecycle Guide-Through           | ✓                       |                             |
| Strategic Planning with BMM Guide-Through            | ✓                       |                             |
| User-Configured Just-in-Time Process Map             | ✓                       |                             |
| Just-in-Time TOGAF® ADM Templates                    | ✓                       |                             |
| Just-in-Time PMBOK® Templates                        | ✓                       |                             |
| Just-in-Time Project Management Templates            | ✓                       |                             |
